

TwentyOne Skills

Scientific Writing

Objective

Scientific writing is the means to communicate ideas, information and research to the rest of the academic community, in a well-structured and well-written way. The goal is to develop a better understanding of a certain topic for yourself and the rest of the scientific community.

Description

- Learn how to improve your scientific writing
- Get to know the different phases of academic writing
- A guide to proofreading
- Tips for correct citing and referencing

Conditions

In cooperation with TwentyOne Skills, GRADE offers about 35 asynchronous online courses.

The 3-month sessions start at the beginning of January, April, July and October.

Registration is possible at any time. Confirmed participants can access the courses for 3 months at the online platform of TwentyOne Skills.

The registration link can be found here: <https://tinygu.de/en21skills>
